Resident Relocation Program

Relocating to a new area, on top of a new career move, can be stressful. We are here to take on that stress and help you with all aspects of your move as you become new members of our community. Our goal is to make the home sale, purchase, rental and moving process as easy as possible for you.

What we offer to our clients that are relocating to the area:

- Provide local area information - Schools, Municipal, Community Events, Community Amenities, Transportation, Activities, and any additional information requested during our initial interview
- Provide contact information of top notch listing agents, in your current community, to assist you in determining the value of your current home with a professional you will like and trust.
- We have partnered with Allied Moving and Storage and they will assist you with coordinating the move based on contract dates for both the sale of your current home and the purchase of your new home. Our clients receive 10% off and free packing supplies when moving into or out of the state of Michigan.
- Vehicle Transportation - We can provide service providers for transporting vehicles
- Temporary Housing - we will assist your family in finding temporary housing if needed
- Temporary Pet Housing - will assist with finding quality pet care during transition if needed
