

**If you sustain a
needlestick or sharps
injury:**

- **Wash** the wound immediately with soap and water
- **Flush** splashes with water
- **Seek** prompt treatment
- **Report** the incident as soon as possible!
- **Discuss** the risk of infection based on the circumstances of the injury
- **Share** your story to help others!

REPORTING helps **PREVENTION**

Report exposures: Page 5356 and notify your supervisor!
